TO WHOM IT MAY CONCERN

Dear Sir/Madam,

I happily confirm that Australian Risk Applications Pty Ltd is a formal “alliance partner” of SmartFreight® and has been so for many years now.

This partnership has resulted in Australian Risk Applications providing commercially astute, regulatory compliant and most importantly, user friendly transit and other insurance services to both our clients and carrier partners in Australia and New Zealand.

I can state categorically that all dealings I have had with Tim Williams and the Australian Risk Applications team have been without reproach as far as integrity, honesty and unbiased delivery of transit insurance solutions to our customers and carrier partners is concerned.

Yours faithfully

Kerry Holmes
