

Worldwide Move Management

Australian Risk Applications PTY Ltd

From my first call to Australian Risks Applications, right through to the purchasing of appropriate Industry specific policies, (including implementation), we have found that the team at ARA to be very informative, proactive, and professional to deal with when it came to my business risks, liability and Insurance requirements. Their response times and “can do” attitude was welcomed when navigating the sometimes challenging Insurance and Compliance requirements for WWMM.

Consequently, a huge thanks to Tim Williams at ARA and his team for understanding my business’s needs, and acting promptly to ensure my business, and customers, were covered with the necessary policies.

If you are looking for an alternative specialist broker, then I can highly recommend contacting ARA.

Many thanks and best regards
